A good game, especially for such a price. It made me feel nostalgic I like it =)

Characters are cute, gameplay is smooth
I find it abit hard.

Basically its a smaller Binding of Isaac, worth checking out though.. every level you have to figure out the way to the solution but thats just half of way because its VERY dependant from the right timing.And im speaking of miliseconds here.Sometimes its even mere impossible and you have to try many many times and in the end you just have to be lucky.
So its a very frustrating game,the psysics of the ball is horrible like others said.This game is far from being enjoyable.It is merely playable at all..if you got the game in the Snkl Studio bundle i recommend to refund it.. Absolutely love this game. It's hard but not as hard as the trailer might make it look. The levels are very short and can be more about memorizing patterns and executing(only for the hardest levels--there are easy ones). Music is awesome and the world they built is really interesting. Some of the characters are quite profound. 10/10. I found it generic and boring, every wave starts the same. Besides new weapons(that can't be unlocked between waves) and more cardboards nothing really changes. No real progression, no story at all, just shooting a lot of cardboards and trowing the same stuff at the beginning of each wave. Not worth the price yet.. Great episode. Can't wait for episode 2 (Sorairo Sorauta Soranooto).
