The music is good. Sadly they dont have it in raw WAV. or FLAC. Codec. All you get is 320kbps mp3 ;-;. If these were recorded in a better codec please update this. Thank you.. Spectacularly nails the space theme. Has a Spelunky vibe to it where it's pretty funky, but ultimately good.. Why the files don't go to the Steam music folder? I found them in steam\SteamApps\common\Waveform, but there is no link to them.

Amazing soundtrack, anyways.. Oh my god, this is like, the best part of Waveform, if you get Waveform, you're wasting the entire experience by NOT getting the soundtrack.

I don't even care that it doesn't show up in the steam music player (if there's a developer reading this, if you could help with that, that'd be great), it's worth all the money, even if it was 10 times the amount it is.
